DETAILED ACTION

1. Claims 1-6, 9-22, 25 and 26 are rejected under 35 U.S.C. 112, 2nd paragraph for being incomplete.

The second paragraph of 35 U.S.C. 112 requires the "specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention." The preambles of all of the claims state that the invention is a "conveyor belt for conveying an object to be portioned by a fluid jet". The detailed description and drawings do not disclose an embodiment, which does not include drive chains 16 and 18 and pivot rods 14 for the conveyor belt. Since applicants are claiming that their invention is a "conveyor belt" in combination with a portioning "fluid jet", the body of claims 1, 16 and 26 must include drive chains 16 and 18 and pivot rods 14 for the chain to be complete. Pivot rods and drive chains must be claimed especially when the function, for example in claim 1, "a first and second picket coupled to one another" is required.

2. Claims 7, 8, 23 and 24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
